CHS-Chimacum High School Gym / 91 West Valley, Chimacum

Bye = No game Scheduled

Dear Families:

Please find below our COVID-19 Safety Rules and Concussion Information Form.
Please go over this information with your participant(s) Thank You, Rec Staff

Jefferson County Parks and Recreation Jr Hoops Basketball League COVID-19 Safety Rules October 3, 2021

Sporting Activities COVID-19 Requirements/classification: Basketball is classified as High Contact Sport.

1. **High Contact indoor sports**; Coaches, athletes, officials, and spectators; **must wear face coverings at all times at practice and games in any indoor gym facility.**
2. All attendees must wash their hands or use hand sanitizer regularly: Before entering the event, after using the restroom, immediately after the game, and when leaving the event.
3. Games and practice times/schedule; We will stagger practice and game times leaving 15 minutes between events. Please arrive in the gym at your game or practice time. If you arrive early, wait outside until your designated time.
4. All spectators of different households are to remain physically distant, 6 feet or more, as much as possible. Spectators, please limit your household attendance at any event. All spectators must wear a mask in the gym/indoors regardless of vaccination status.
5. Self-screening is required: any players or spectators, who are under quarantine, or have had any of the following COVID-19 symptoms in the previous 72 hours are not allowed to attend any Jefferson County Parks and Recreation events: cough, shortness of breath or difficulty breathing, fever, chills, muscle pain, sore throat, or a new loss of taste or smell. Any individual who develops or displays any of these symptoms must remove themselves, or be removed by their parents or caregivers from the event immediately. Coaches and/or Rec Staff have the right to ask parents and caregivers to remove any individual they observe with these symptoms.

Jefferson County Parks and Recreation follows the guidelines of local health professionals including the Jefferson County Health Department, Jefferson Healthcare, and Washington State. Our aim is to contribute to the health and safety of our community while allowing our youth to participate in healthy physical activity. We appreciate your support and patience.

- In the event of a COVID spike/mandates, games and practice will be postponed; and a revised schedule will be sent out once we are cleared to return to play.

In the case the program is canceled due to COVID spike/mandates; full refund before the season; after the season starts, you will receive a prorated-credit on your account; minus T-shirt/Jersey cost

Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- | | |
|--|--|
| <ul style="list-style-type: none">• Headaches• “Pressure in head”• Nausea or vomiting• Neck pain• Balance problems or dizziness• Blurred, double, or fuzzy vision• Sensitivity to light or noise• Feeling sluggish or slowed down• Feeling foggy or groggy• Drowsiness• Change in sleep patterns | <ul style="list-style-type: none">• Amnesia• “Don’t feel right”• Fatigue or low energy• Sadness• Nervousness or anxiety• Irritability• More emotional• Confusion• Concentration or memory problems (forgetting game plays)• Repeating the same question/comment |
|--|--|

Signs observed by teammates, parents and coaches include:

- | | |
|--|---|
| <ul style="list-style-type: none">• Appears dazed• Vacant facial expression• Confused about assignment• Forgets plays• Is unsure of game, score, or opponent• Moves clumsily or displays in-coordination• Answers questions slowly | <ul style="list-style-type: none">• Slurred speech• Shows behavior or personality changes• Can’t recall events prior to hit• Can’t recall events after hit• Seizures or convulsions• Any change in typical behavior or personality• Loses consciousness |
|--|---|

What can happen if my child keeps on playing with a concussion or returns to soon?

Concussion Information Sheet

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athlete will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, Coaches, parents and students is the key for student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The new "Zackery Lystedt Law" in Washington now requires the consistent and uniform implementation of long and well-established return to play concussion guidelines that have been recommended for several years:

"a youth athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time"

and

"...may not return to play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussion and received written clearance to return to play from that health care provider".

You should also inform your child's coach if you think that your child may have a concussion Remember its better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

For current and up-to-date information on concussions you can go to:
